Introducing the Wheelchair Accessible Ram ProMaster Full Size Van When it comes to choosing a passenger van for accessible transportation, there are a few reasons why the Ram ProMaster full size van may be a better fit for your particular non-emergency medical transportation needs. The Ram ProMaster features a V6 Flex Fuel 3.6 Liter Pentastar engine with 280 horsepower and 260 lb.-ft. of torque. Depending on the choice of wheelbase and roof height, the ProMaster features anywhere between 259 to 463 cubic feet of cargo volume. Hauling capacity ranges from 3,990 pounds to upwards of 5,200 pounds. The ProMaster boasts roomy interiors, numerous floor configurations, different roof height options, and powerful standard engines. Let's talk about some advantages of the ProMaster vs. other full size vans in it's class.. The Ram ProMaster offers more interior space, more horsepower, and more maximum payload capacity. With a better turning diameter (46 ft.) and a lower load floor (21 in.), the ProMaster provides superior maneuverability which can translate to continued savings on gas. At its base, the Ram ProMaster delivers incredible value for the money at a better starting price.

RAM PROMASTER STANDARD LENGTH REAR LIFT

If you are a start-up NEMT provider mulling over your first wheelchair van purchase, you can't go wrong with the Ram ProMaster. There's just so much packed into the vehicle that you might wonder why it's not more expensive than it is; the vehicle is truly a leader in terms of value amongst the cargo van market. With our expertly engineered ramps, lifts, and auto-securement for wheelchairs and gurneys (all manufactured in-house), your riders will experience utmost convenience, safety, and comfort. If your company doesn't already have a fleet number with Ford, you'll have the added benefit of being able to join the FCA Fleet so that you can receive priority service and access to competitive pricing/incentives on future Ram purchases as you begin to build your fleet.
